MATERIAL INFORMATION

Silicone (silicone rubber):

A high-quality and skin-friendly material:

- odourless
- no plasticiser (phthalates)
- excellent elasticity, strength and smoothness
- high endurance of shape and colour
- heat and UV-resistant
- adapts to body temperature
- antiallergenic
- easy to clean
- hygienic

Important: silicone should not be used with other silicone products. Therefore, the use of silicone-based lubricants should be avoided.

Latex (natural rubber):

The classic material for intimate areas:

- no plasticiser (phthalates)
- very fine structure
- excellent elasticity and strength
- adapts to body temperature
- easy to clean

- hygienic

Important: customers with a latex allergy should not use latex toys. Harsh detergents and massage oils may dissolve latex.

PVC (polyvinyl chloride, soft PVC, jelly)

A versatile, popular sex toy material:

- excellent elasticity and strength
- alcohol and oil resistant
- adapts to body temperature

Important: the distinctive odour of the product disappears after airing it thoroughly.

ABS (acrylonitrile butadiene styrene, hard plastic material)

The classic material for a variety of vibrators:

- odourless
- no plasticiser (phthalates)
- excellent at transferring vibrations
- easy to clean

- hygienic

Please note: batteries should be placed firmly into ABS-vibrators, as loose-fitting batteries can increase the vibrator's noise.

PU (coating) (polyurethane)

A coating on ABS sex toys providing a skin-friendly, velvety soft characteristic:

- odourless
- no plasticiser (phthalates)
- UV-resistant

• adapts to body temperature
Important: harsh detergents and massage oils may damage polyurethane.

TPE/TPR (thermoplastic elastomers, Nature Skin, Cyber Skin, Loveclone)

Innovative material with silicone-like qualities:

- odourless
- no phthalates
- excellent elasticity and strength
- UV-resistant
- adapts to body temperature

Acrylic (-glass/Plexiglas/ polymethyl methacrylate)

A hygienic, glass-like material:

- odourless
- no plasticiser (phthalates)
- smooth surface
- excellent at transferring vibrations
- UV and oil resistant
- adapts to body temperature
- antiallergenic
- easy to clean
- hygienic

Important: acrylic sex toys should be cleaned by hand or with a smooth sponge, in order to avoid scratching the surface.

For items (especially toys) consisting of several materials: only the material(s) which come into contact with the mucous membrane is/are stated.

Items should always be stored separately to avoid reactions between the materials.

Autoblow 2+™

EXTRA TIGHT EDITION

WORLD'S BEST BLOWJOB MACHINE

Autoblow 2+ XT

There is a motor inside the robust casing, which rhythmically moves the springs up and down. The penis sleeve is inserted into the casing so that the springs are around the sleeve. The sleeve with a mouth-shaped opening is suitable for ALL penis lengths. Penis circumference see below.

What it has to offer:

- 50% tighter than the Autoblow 2+ model
- 5 massage arms (springs) go around the shaft
- Very powerful & robust industry quality motor
- Fully-automatic massage in an up-and-down movement
- Hands-free stimulation
- Plug connection

FOR GREAT PROTECTION!

Menstrual Cup

Reusable, flexible menstrual cup with stem (length 1.6 cm, can be shortened) that can be pressed together and inserted into the vagina during menstruation. It can stay inside the body for up to 12 hours. The menstrual cup returns to its original shape once it's inside the body. The cup can't be felt once it's inside, it stays in front of the cervix without slipping and it doesn't spill any liquid either. Lint-free storage bag included.

Small

Capacity: 16 ml. 4.6 cm long (without stem), Ø max. 4 cm. 0533335 0000

Large

Capacity: 22 ml. 5.1 cm long (without stem), Ø max. 4.5 cm. 0533343 0000

Here's how it's done:

The flexible, funnel-shaped cup is inserted into the vagina like a tampon to collect the blood. Once the cup is full, it can be removed with the stem. After the cup has been emptied and cleaned, it can be used again.

Made of medical silicone!
